CHEMICAL PEELS & MICRO NEEDLING

■ About Us

Beauty is Life Institute™ is a premier beauty and aesthetics training center dedicated to shaping the next generation of industry professionals. With locations in Paarl and Johannesburg, we specialize in empowering individuals with cutting-edge skills, managerial expertise, and entrepreneurial insights to thrive in the dynamic beauty and wellness sector.

Our holistic approach combines the latest advancements in aesthetics with innovative business practices, ensuring our graduates are well-equipped for success.

At Beauty is Life Institute™, continuous learning and professional development are at the heart of everything we do, fostering excellence, innovation, and expertise in every student we train.

■ Our Philosophy

Beauty is Life Institute™ is dedicated to shaping the next generation of Health and Skincare professionals. Rooted in respect, integrity, and industry expertise, we combine eco-friendly principles with high-quality, results-driven training.

We mentor and inspire our students to excel in the dynamic beauty industry, offering lifelong support and a focus on excellence. At Beauty is Life Institute™, we don't just teach – we empower careers.

■ What does this course entail?

Training in Chemical Peels and Micro Needling is a valuable investment for beauty therapists looking to expand their services, increase revenue, and advance their professional development. These advanced treatments can help clients achieve healthier, more radiant skin, improving their complexion and boosting self-esteem. Chemical peels are in high demand, offering proven solutions for a variety of skin concerns, including acne, hyperpigmentation, and signs of aging. Adding this service to your portfolio can attract new clients and enhance your business.

Micro needling, with its ability to stimulate collagen production and improve skin texture, is another sought-after treatment. By incorporating both chemical peels and micro needling into your offerings, you can provide clients with detailed skincare solutions that address multiple concerns.

When combined, chemical peels and micro needling can deliver even more impressive results. Both treatments stimulate collagen production and improve skin texture, making them complementary and highly effective when used together. Offering them as part of a package gives clients a comprehensive approach to their skincare needs, addressing multiple concerns for a more youthful, glowing complexion.

By completing training in both chemical peels and micro needling, you can stay at the forefront of the beauty industry, enhance your professional development, and provide clients with the highest standard of care, ultimately boosting both client satisfaction and your business success.

CERTIFICATE/DIPLOMA IN HEALTH AND SKIN CARE MANDATORY FOR REGISTRATION.
